	Design appropriate learning experiences for students with exceptionalities that are informed by diverse cultural experiences and varied patterns of learning and development.	Create a safe, inclusive, culturally responsive environment that cultivates active and effective learning for students with exceptionalities.	Plan cross-disciplinary learning experiences that promote individualized academic and social abilities, attitudes, values, interests, and career options for students with exceptionalities.	Synthesize results from multiple evidence-based assessments to guide educational decisions for individuals with exceptionalities.	Incorporate cross-disciplinary skills using evidenced-based instructional strategies for students with exceptionalities.	Evaluate how ethical principles and practice standards influence special education laws, regulations and individual professional accountability.	Construct an action research proposal that addresses local or global issues related to individuals with exceptionalities.	Integrate positive collaborative practices with various stakeholders to address the needs of students with exceptionalities across a range of learning experiences.
