

Community College of the Air Force Transfer Guide

The University of Arizona Global Campus (UAGC) and Community College of the Air Force (CCAF) have entered into this Agreement in the spirit of cooperation and to mutually recognize each other as quality institutions of higher learning. The purpose of the Agreement is to enable CCAF students who transfer to UAGC to carry with them the credit they have already earned. The Agreement provides a structure through which transfer articulation can be supported. Students may pursue their academic and professional goals through any of the degrees offered at UAGC.

CCAF graduates, with a minimum cumulative GPA of 2.0, entering under the terms of this Agreement are guaranteed admission into a bachelor's degree program at UAGC provided they meet all admissions requirements for the chosen degree program. The transfer guides outlined in this Agreement are applicable to students transferring to a bachelor's degree program at UAGC from CCAF.

Under this Agreement, CCAF students transferring with a conferred associate's degree, with a minimum 2.0 cumulative GPA, and recognized as meeting the General Education requirement for bachelor's degrees offered through state universities in Alabama will have fulfilled all lower division General Education requirements at UAGC. The General Education Capstone course must be completed at UAGC.

CCAF students transferring will have all college-level academic credit (generally, 100-level or higher), and with a grade of "D" or better, accepted for transfer on a course-by-course basis into the remaining academic categories that are the best fit (e.g., elective, General Education requirement, major course). A maximum of 9 credits with a "D" grade are transferrable. "D" credits cannot be applied toward the major or toward General Education core competencies at any time.

The online modality at UAGC places no general age limit on transfer credit from approved accredited institutions, with possible exceptions in certain subject areas. Restrictions on transferability are specifically noted in the degree/major requirements. Limitations on the number and type of transfer credits accepted are set by each UAGC degree program.

The University of Arizona Global Campus Transfer Guidelines:

Students must complete 120 credits to obtain a bachelor's degree. A maximum of 90 combined non-traditional learning, prior learning, and transfer credits may be accepted. For state-specific information, please refer to the [Undergraduate General Transfer Credit Provisions and Limitations](#) in the UAGC catalog.

- Official transfer credit evaluation takes place once a student is enrolled at UAGC and all official transcripts have been received.
- Courses that meet more than one General Education or direct transfer requirement can only be applied to one requirement, unless the course carries the required credit. **Credit minimums apply to all General Education and direct transfer courses.**
- Courses marked with an asterisk (*) must be combined with additional courses in the same subject area to satisfy the credit requirement.
- All courses listed on this course equivalency guide show the current course equivalency. Previous versions of each course may transfer differently based on the course content at the time it was completed.
- Multiple courses may meet the same General Education requirement. Only one course with the required credit is needed to satisfy the requirement.
- Transfer credit may not be granted when it duplicates college credit previously earned. Credit will not be given for the same learning twice.
- Courses being transferred to meet the Information Literacy Core Competency requirement, the Digital Literacy Competency requirement, or any computer-specific course must have been completed within the last 5 years.
- All students must successfully complete a minimum of 30 upper-division credits to graduate. In some instances, lower-division credits may be applied for upper-division credits. These credits will not apply to the upper-division requirement.
- Credit may only be applied to the same degree level (undergraduate, graduate) as the incoming transfer credit.
- For courses being transferred to meet a specific UAGC course, a minimum of 3 semester credits is required.

Credit recommendations are subject to the student's major and transfer credits. UD = Upper Division, LD = Lower Division

Credit recommendation shown is the maximum number of credits students can receive if additional credits are needed to fulfill the area of recommendation or elective requirement for graduation.
