

## Associate of Applied Science in Health Information Technology to Bachelor of Science in Health Information Management

Pending receipt and evaluation of official transcripts, this program to program transfer pathway is unofficial, does not guarantee automatic acceptance of transfer credits, and is based solely on Dallas College coursework with a grade of C- or better. The University of Arizona Global Campus (UAGC) course applicability and availability to take additional coursework beyond the designated Dallas degree will vary based on each student's individual transfer credit situation. We recommend students work with their UAGC Academic Advisor during their first UAGC course to ensure duplicative coursework is not scheduled pending their official transfer credit evaluation. For complete degree, residency, and transfer credit policies, please refer to the UAGC catalog. Successful completion of this UAGC program by itself does not provide licensure or certification in any state, regardless of concentration or specialization.

**Successful completion of ENGL 1301 is required before student progresses past GEN 101 at UAGC.**
